RUTLAND

The publishers of this Directory consider it advisable and desirable to set forth the following paragraphs, in as simple and attractive a manner as possible, to enable the readers of these descriptive pages to comprehend as many of the outstanding features of Rutland as limited space permits. The local resident, the visitor, and the distant reader about Rutland wish to gain an impression of Rutland as well as to have at hand a statistical reference regarding the city and its people. It is the publisher's aim to portray as much of Rutland's charm and greatness as is consistent with facts. We believe with John Cotton Dana, the great librarian that "Good citizenship springs from a knowledge about one's own community." The teachings of the City Map and the City Directory about localities, districts, street locations, street changes, growth of sections and general city changes are of great importance to property owners, old residents, new residents and school children. Racial characteristics of names in the Directory enable the consultant to gain a very comprehensive knowledge of the inhabitants of the city and many other educational facts. Notable men all through history have contributed their philosophy as to the value of knowledge about the home town. Here is one from Abraham Lincoln: "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." In studying the following, remember that the Rutland City Directory disseminates this information far and wide where this Directory represents Rutland in the Free Directory Library Exchange System of North America. The Rutland City Directory, with over 418 closely printed pages, is the City of Rutland in book form; its family and social life, business and industrial life, is portrayed in great detail. The publishers invite and accept constructive criticism and suggestions for the improvement of the Directory for the benefit of Rutland and all interested.

For further information regarding Rutland, address Rutland Chamber of Commerce, or H. A. Manning Company, Publishers of this Directory.

LOCATION—Rutland, known as "The Marble City," is located midway of the State north and south. It is about 15 miles from the western boundary and has many of the characteristics of the great neighboring State of New York. Distances as follows to important eastern points: New York 235 miles, Boston 167, Montreal 176, Philadelphia 325, Baltimore 420, Burlington 68, Montpelier 66, Bellows Falls 51, Glens Falls 50, Bennington 57, North Adams 77, Schenectady 95, Ogdensburg 224, St. Johnsbury 106, Brattleboro 77.

TOPOGRAPHY—Probably no important city in New England has so grand a setting as Rutland. The city lies among picturesque lakes and streams, the encircling mountains are near, yet far enough away to give plenty of building room and the broad valley running north and south for many miles is one of the beauty spots of America. Noted mountain peaks of the Green Mountain and Taconic ranges can be seen from high parts of the city. The highest peak visible is Mt. Killington, over 4,000 feet. City is 600 feet above sea level. Contains land area of 5,335 acres, water area of 100 acres.

HISTORICAL—The history of Rutland vies with any city in the land for interest. It was settled in 1761, and by 1774 there were 35 families. In common with all frontier settlements it suffered from the depredations of the Indians, and also from the Colonial and Indian Wars. Probably named after Rutland, Massachusetts, because the first grantee of the charter for town was a John Murray from that town. Incorporated a city in 1892.

INDUSTRIAL—Rutland leads the State in industry. In 1930 there were 37 major plants producing \$6,118,927. Employing 1,042 with a payroll of \$2,093,861 annually. The leading products are antiseptics, medical products, awnings, flags, barrels, confectionery, cement, tile, dairy and creamery machinery, women's clothing, fire clay, roof cement, shirts, collars, ice cream, printing, maple sugar utensils, marble, mattresses, railroad car repairing, sand pumping machinery, scales, trucks, refrigerators, beverages, steam boilers, iron work, stone working machinery, tin cans, wood working materials, granite, slate, garden tools, toys, artificial stone finish, iron castings, fruit packing, clothes pins, threshing machines, saws, dairy products. The quarrying of marble, slate, lime, talc, soapstone and fire clay is extensively carried on in the Rutland district. Agriculture, fruit raising and dairying are important in the county. There are 44,184 farm animals in the county; 92% of the labor supply is native born. Average work day in factories is 8 hours, in building trades 8 hours. Available industrial sites are of the best and on trunk line railroads.

banks with capital and surplus of \$1,040,000 and deposits of \$5,785,000; 1 trust company with capital and surplus of \$424,000 and deposits of \$2,000,000; 2 savings banks with resources of \$22,000,000. Total population covered by this directory is 26,283.

It has 300 fine stores, retail and wholesale; it has 200 professional offices. The annual payroll of the Rutland industrial district is over \$6,000,000, for all workers within the city is well over \$7,000,000.

TRANSPORTATION—Rutland is the largest railroad center in the state. Steam railroad lines diverge in six directions. The headquarters of the Rutland Railroad is located here, this system has 413 miles of main line running from Troy, N. Y., through the length of Vermont and across northern New York to Ogdensburg where it connects with Great Lakes-St. Lawrence River navigation; there is also a branch from Rutland to Bellows Falls where it connects with two important divisions of the Boston & Maine Railroad; a high type of passenger service is maintained; it is one of the great freight services of New England with its transcontinental connections. The Delaware & Hudson Co. have the terminus of two divisions here: the Whitehall division connects with the main line and offers a route into Canada and also into Pennsylvania without change; the other divisions connect with the main line at Troy. The Clarendon and Pittsford Railroad is a short line. Total number of passenger trains in and out of Rutland daily are 26. There are 13 regular freight trains, the total inbound and outbound tonnage annually is 253,000 tons. With the discard of street railway system Rutland inaugurated a complete bus system which has grown very efficient and not only serves locally but interurban. There are also 7 interurban bus lines covering a total of 295 miles. The main route highways diverge in six directions from Rutland. Two of these highways are concrete and three macadam. The airport has a runway of 1,900 feet north and south and 1,200 feet east and west.

EVERY CITY

must have a Directory not only to give the names and addresses of its citizens, but also to give that character of progressiveness that would record the name of its people for historical purposes. Every one has forefathers, these forefathers have made the history of this country, some day you will be the forefather and your descendants can visualize your life's work quicker through the registration in the Directory of your time than in any other way. The BIOGRAPHICAL HISTORY OF THE MASSES IS CONTAINED IN THE CITY DIRECTORY AND NO OTHER PLACE. That stamps its importance to the family. To make your history, watch your Directory registration to see that it accurately records your position in life from year to year.

Publishers Notice

The following pages are devoted to the in-
 terests of industrial, mercantile and professional
 Rutland. In these pages will be found an-
 nouncements of all classes of business houses,
 placed there for the purpose of enlightening
 those who would BUY IN RUTLAND.

In no other place will such a huge amount of
 data regarding Rutland be found. It repre-
 sents indefatigable labor on the part of the pub-
 lishers coupled with the progressive and co-
 operative spirit on the part of those listed herein.
 Rutland thus writes a milestone in its history
 that must have far reaching effects in its pro-
 gress.

If this book serves you and your city you can
 do no less than give recognition to the men and
 institutions who have made this possible. Some
 big men in Rutland have had such a belief in
 this Directory that they have gladly given of
 their time and finances that some of the in-
 stitutions might have registration. To these
 men in particular we wish to offer our con-
 gratulations and gratefully acknowledge their
 civic spirit.

The Churches

WITH A TOTAL OF FIFTEEN, representing all the leading denominations, Rutland is well supplied with churches.

These noble edifices placed at intervals about the city add much to its attractiveness and charm.

It is the belief of many Rutlandians of vision that this full and adequate supply of churches is one of the greatest of the many resources of the city.

That for newcomers it is a factor that makes for the ready assimilation into the religious and social life of the community and hastens the time required to make citizens of the strangers who come to us.

The church of today is the greatest of all institutions for the planting of good thoughts in the minds of the people and stands as the bulwark against degrading influences that surround us.

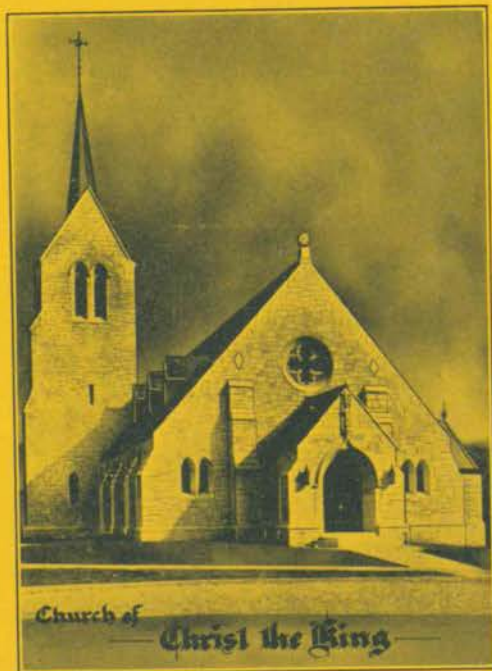

Therefore let us give a thought to these institutions that form so great a part of our city life and in visualizing our future greatness let us remember their value as

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference

book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

Industrial Rutland

As an Industrial Center, Rutland is in the pioneer class. Long before modern transportation came Rutland had its industrial structure founded. For many years the destinies of the industries here were guided by local men, and the present plants are the result of the energies of Rutland men.

Among the largest and oldest industries are marble and granite quarries, weighing scales, iron works, maple sugar makers' supplies, machinery, plaster, clay products, tin cans, sweeping compounds, railroad car repairs, fire clay, glass, concrete pipe and products, burial vaults, archery supplies, cemetery memorials, etc.

Rutland—the first city in Vermont industrially, manufacturers products valued at nearly \$10,000,000 annually. There are 37 principal industries employing 1,900, and paying wages of over \$2,000,000 annually.

In the Greater Rutland industrial district there are 113 plants with 5,117 employes, and a payroll over \$7,000,000, with annual products valued at \$18,000,000. The quarrying of marble, slate, lime, talc, soapstone, and fire-clay is extensive. Agriculture and fruit raising are important.

Average work day in factories is 8 hours. Available industrial sites are plentiful, and located on trunk line railroads.
